Cap Protection Plan

This beneficial plan is designed to stabilize and limit your cost of fuel. We provide a ceiling limit on your cost and a limitless bottom to how much you pay. Therefore you are protected from rising prices above your ceiling. Anytime the daily rate is below your ceiling, you pay the lower rate.

You may participate in our Price Cap Protection Program by "protecting" the gallons you will use throughout the heating season. The fee for our cap is determined on a per-gallon basis.

Jack Rich Customers Sign up for AP&I's Residential Electric Service

- 5% of your generation charges are credited back to your heating oil account for any future oil purchase!
- You are guaranteed a lower price per kilowatt hour than the PPL price to compare.
- Program available to all Jack Rich customers for Residential Service only.

Easy Pay Budget Plan

Our Easy Pay Plan estimates your total annual heating bill and divides your payments equally over the course of the year. Rather than having expensive bills during the middle of the winter, you can have more moderate bills equally spaced throughout the year. Customers are taking advantage of this payment method because it helps keep the family budget manageable.

Fixed Price Plan

Our Fixed Price Program is an option to pay once (or spread out your payments over 6 months) for the entire heating season with the added convenience of automatic delivery.

Your Options... How it works:

1. Choose which plan works best for you.
2. Complete and sign the enclosed contract related to the plan you choose.
3. If you are choosing a fixed price plan you will need to enclose a check for the deposit.
4. If you choose to CAP your price, complete the portion of the contract and enclose a check for the enrollment.
5. Retain the YELLOW copy of your contract for your records.

Fixed Price and CAP plans are available on a first come first serve basis.

When programs sell out we may offer additional programs at a higher price.

We encourage you to act quickly!
